MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS OF INTERCEMENT PARTICIPAÇÕES

The Code of Conduct is one of the foundations of our company and expresses the essential principles of good governance.

We have had this Code of Conduct for almost two decades and it has undergone continuous improvements based on what we have learned and our observations regarding the best practices to be followed, in addition to being an important tool for maintaining the integrity of our operations.

I always stress that this is not an autonomous document, created to meet the expectations of stakeholders. It is fully aligned with our values and convictions, contains the guiding principles of our culture and indicates how we would like the people who work in our company to behave.

Ethical conduct and full compliance with legislation are indicators of how a company can contribute actively to the socioeconomic and environmental development of a city, a region, or an entire country, ensuring best ESG practices.

And it was with this attitude that we became a positive reference, earning the trust and respect of our stakeholders.

The Code of Conduct must, in short, guide the activities of professionals and all our interactions with internal and external audiences; always choosing to do what is right and what is legal.

Wilson Brumer

MESSAGE FROM THE CEO OF INTERCEMENT PARTICIPAÇÕES

Our activities are based on fair, honest and responsible actions, not only from a commercial point of view, but also taking into account social and environmental issues in order to ensure the market's respect and compliance with current legislation.

I ask you to read and understand this document, which will serve as an important reference in your day-to-day activities, and clarify any doubts you may have.

When relationships of this nature exist, they must be immediately communicated to the immediate superior or to the Human Resources department. In case of doubt the Ethics and Compliance Committee must be asked to analyze the case and issue an opinion.

The authorization and hiring of companies owned by our professionals, their relatives or people close to them to provide services to InterCement must be previously informed to one's Director, who will be responsible for making a formal consultation to the Ethics and Compliance Committee.

Referring relatives and friends to fill vacancies at InterCement is a traditional practice. Should this happen, it must be communicated to the Human Resources department. It is up to the responsible departments to decide on selection and hiring, so pressure by connected professionals to influence admission, promotion or dismissal is unacceptable. The hiring of relatives, spouses, partners and/or companions is allowed. However, hiring people with such ties for subordinate positions in the same sector will not be accepted.

Furthermore, it understands that the existence of a free, independent and impartial press contributes to the improvement of the market, the democratic State and citizenship. Therefore, InterCement repudiates the use of economic power to constrain the action of the press or to induce it to publish untrue facts.

COMBATING CORRUPTION

Broadly speaking, the term 'corruption' refers to the attempted or consummated obtaining of personal benefits or commercial advantages through improper or illegal means. Corruption can involve paying or exchanging anything of value, including bribery and extortion.

The laws of some countries make a distinction between bribing a public official and bribing someone who is not

a public official. In InterCement's view there is no difference. Paying a bribe - to anyone - is prohibited.

All details related to the topic of Anti-Corruption are described in a specific standard available on our website.

It is forbidden to offer or receive any type of advantage or favor from public authorities or the private sector.

It is also forbidden to hire Politically Exposed Persons in order to obtain undue benefits for business operations or for oneself. Hiring public officials must comply with all applicable laws and

regulations and may not be used to cover up bribery or other illegal activities.

All forms of interaction, pressure or solicitation with/from public or private sector employees that do not comply with the parameters established in this Code of Conduct must be refused and immediately communicated to the immediate Director and the Ethics and Compliance Committee. InterCement has a philosophy of strict compliance with the legislation of the countries where it operates and expects the same behavior from its professionals.

RELATIONSHIP WITH THIRD PARTIES

Commercial relations with third parties, from the public or private sector, must be conducted in a legal, impartial manner, observing their quality, adequate cost-benefit and technical capacity. If there is a conflict of interest regarding a third party, or if one is suspected, the situation must be communicated to the Ethics and Compliance Committee, which will perform an analysis and resolve the matter.

Money laundering and financing of terrorist acts are strictly prohibited. Professionals must ensure that InterCement establishes relationships and does business only with third parties that enjoy a good reputation, are involved in lawful activities and whose resources have a legitimate origin.

InterCement does not forbid transactions involving stocks and/or other securities, remembering that such transactions are the sole responsibility of the professional who must consider that the purchase and sale of stocks and/or securities is subject to inherent stock market risks. Professionals must ensure strict compliance with the confidentiality of important undisclosed information. Thus, professionals may not carry out transactions based on InterCement inside information. Using InterCement inside information for one's own benefit or for the benefit of third parties, including securities trading in the capital market, constitutes a crime and, as such, is prohibited.

In this way, information that may influence the price or behavior of shares in the market and the decision to purchase or sell the company's shares are deemed to be confidential and its disclosure must comply strictly with the procedures established by regulatory and supervisory capital market bodies, and cannot be used directly by managers and professionals, or provided to third parties.

In this sense, professionals are strictly forbidden to provide advice on the

purchase and sale of shares, bonds or any other securities of companies fully or partially controlled by InterCement, based on inside information to which they have access and which has not yet been made public. InterCement will not tolerate the disclosure of inside information to the market. Failure to comply with this principle is subject to sanctions provided for in item 04 of this Code of Conduct.
